Projects

FitnessTrackr   **Nov 2018 - Present**

A fitness tracker for people who keep track of their daily macro-nutrient intake.

- Developed an app to manage a user's calorie intake throughout their day.
- Provides a visual breakdowns of how much proteins, carbs, fats, and calories each meal consist.
- Based of their progress, users can update their body measurements to get new fitness reports.
- Technologies used in this project are Node.js, Express.js, Passport.js, PostgreSQL, and React.js.

VB Productions   **Aug 2017 - Mar 2018**

App is a content management system where authorized users can upload their content without the assistance of developers.

- Content sent to the server is processed and compressed, which in return reduces file size by 60 ~ 80%.
- App dynamically updates and serves viewers with the most up to date content.
- Hosted on a virtual private server using Digital Ocean and secured with SSL Certificate.
- Technologies used in this project are Node.js, Express.js, MongoDB, and React.js.

YelpCamp   **Dec 2016 - Feb 2017**

Developed a mock media service app similar to Instagram or Flickr.

- Users are able to register an account, upload photos, comment on photos and post blogs.
- App was developed with user experience as the highest priority, so users can have a smooth and optimal experience.
- Technologies used in this project are Node.js, Express.js, Passport.js, Heroku, and mLab.

Experience

Apr 2015 - Apr 2016

Data Analyst

Pedroso Consulting

- Developed and implemented SQL queries to reveal data-type inconsistencies; which has resulted in a increased in efficiency and reduced errors by 99% during data processing.
- Formulated tables were used in reports that had an impact on future year's funding.
- Performed statistical analysis to reveal any trends or correlation that were used for imperial data in report.

Education

Sep 2011 -
Dec 2015

University of California, Santa Cruz

- BS in Business Management Economics

Technologies

React.js

Redux.js

Node.js

Express.js

MongoDB

PostgreSQL

Operating Systems

MAC OS

Ubuntu
